

Adarsh Nadda

Full Stack (MERN) Developer

+91 7560044001 · adarshnadda2002@gmail.com · linkedin.com/in/adarsh-nadda-a65328276 · Mohali (SAS Nagar), India

PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on industry experience building responsive, performant web applications. Proficient in the full JavaScript ecosystem — React.js, Next.js, Node.js, Express.js and MongoDB — with a solid command of Tailwind CSS, RESTful API integration and Git-based version control. Passionate about writing clean, maintainable code and delivering seamless user experiences, with growing expertise in Cloud & DevOps (AWS, CI/CD).

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, Tailwind CSS
Backend	Node.js, Express.js, RESTful API Design
Database	MongoDB, Mongoose ODM
Version Control	Git, GitHub
Tools	VS Code, Postman
Practices	Responsive Design, Performance Optimisation, MVC Architecture
Learning	AWS (EC2, S3), CI/CD Pipelines, DevOps Fundamentals

WORK EXPERIENCE

Auspicious Soft Pvt. Ltd.

Junior Full Stack Developer · Mohali (SAS Nagar), India

- Build and maintain full-stack features using React.js, Next.js, Node.js, Express.js and MongoDB.
- Translate business requirements into scalable, well-structured solutions in a collaborative team.
- Optimise frontend performance and ensure fully responsive, accessible interfaces across all devices.
- Integrate third-party REST APIs and implement secure JWT-based authentication flows.

Solitaire Infosys Pvt. Ltd.

MERN Stack Intern · Chandigarh, India

- Developed and tested RESTful APIs using Node.js and Express.js, following MVC architecture.
- Built interactive React.js frontend components with dynamic state management and clean UI.
- Participated in code reviews and followed best practices for maintainable, reusable code.
- Gained hands-on experience with MongoDB schema design and full CRUD operations.

PROJECTS

Paddle / ProjectPlay

Next.js, Node + Express.js with MongoDB · REST API Integration · Live

www.projectplayapp.com

- Live web app for booking Paddle Pickleball courts across Chandigarh.
- Designed a fully responsive UI for court discovery, availability viewing and slot booking.
- Integrated real-time court schedule APIs enabling live availability updates without page refresh.
- Delivered a smooth booking experience with dynamic components and optimised load times.

ROFL

Next.js, Node + Express.js with MongoDB

- End-to-end e-commerce-style platform built independently — from database design to production UI.
- Architecting frontend and backend from scratch with secure JWT auth and role-based access control.
- Building responsive UI with admin and user dashboards, real-time data and full CRUD operations.
- Implementing MongoDB data models for items, orders, shipping, payouts and dispute management.

EDUCATION

Doaba Institute of Engineering and Technology (DIET), Kharar

Bachelor of Technology — Computer Science & Engineering
